120 Months	\$500	2.47%	2.50%
16 Months "AWARE"***	\$100	2.225%	2.25%

Dividends are compounded daily. Dividends paid monthly. Dividend period is monthly. Additional deposits and withdrawals are not allowed. Renewal is automatic. The Annual Percentage Yield (APY) is based on the assumption that dividends will remain on deposit until maturity. A withdrawal will reduce earnings. Your account will mature within the term or at the maturity date set forth on your certificate or receipt or renewal notice. For an Educational IRA, the minimum opening deposit is \$500. A penalty may be imposed if you withdraw any of the principal before the maturity or renewal date. PENALTIES are based on the term of the certificate as follows: One year or less - penalty equal to the smaller of the two: interest since purchase date of last renewal, or 90 days' interest; More than one year - penalty applicable is the smaller of either the interest since issuance or interest for 180 days. For liquid IRA certificates, the dividend forfeiture is equal to the smaller of: dividends since date of issuance or renewal, or 365 days' dividends regardless of maturity. We may deduct any applicable penalty from your principal in the account if required; \*The dividend rate payable on a "FLEX" certificate may change if a member exercises his one time right to increase the dividend rate during the term of the certificate to the rate then offered by FORUM on "FLEX" certificates with an identical initial term. In the event that a member elects to increase the dividend rate on his "FLEX" certificate, the increase would not become effective until the first day of the month following the member's exercise of this election.

\*\*The dividend rate and annual percentage yield (APY) on a Liquid IRA Certificate may change if a member exercises his right to add \$1,000 or more to the certificate balance and increase the dividend rate and annual percentage yield (APY) during the rate adjustment period of January 1 through April 15 of each year during the certificate term. The rate and yield may increase only if the current rate offered by FORUM on the Liquid IRA Certificate with an identical initial term has increased and \$1,000 or more is added to the certificate balance.

The dividend rate and APY payable on the "FLEX" Certificate and Liquid IRA Certificate will be determined by FORUM's Board of Directors and that there can be no assurance that this rate will increase at the same rate as the dividend rate and APY paid by FORUM on other types of certificate accounts with different initial terms. Each account holder acknowledges receipt of this schedule, agrees to its terms and agrees that it is a part of the Member Account Disclosures and Agreement booklet.

Rates are variable and may change weekly as determined by the board of directors. Dividend Rates and Annual Percentage Yields are the prospective rates and yields we anticipate paying for the applicable dividend period based upon current income and available earnings after providing for required reserves. Dividends begin to accrue on cash and non-cash (checks, etc.) on the business day you make the deposit. If you close your account before accrued dividends are credited, accrued dividends will be paid at closing. The dividend period begins on the last calendar day of the previous month and ends on the next to the last day of the current month.

\*\*\*Available for Aware Accounts only, ages 0-19. Deposits of \$20 or more can be made to the Certificate at any time

**Average daily balance is calculated by adding the account balances at the end of each day together and dividing the total by the number of days in the month or number of days the account has been open, whichever is less.**

ACCOUNTS ARE NON-TRANSFERABLE AND MAY NOT BE USED AS SECURITY EXCEPT BY YOU WITH THE CREDIT UNION.
